

March 7, 1960

Mr. Earl Lloyd
State Engineer
Cheyenne, Wyoming

Dear Earl:

RE: BURNT FORK DISTRIBUTION

This will remind you of the Utah Water Users' meeting on Burnt Fork scheduled for Thursday, March 10 at 6:00 p.m. in Manila, Utah, which I discussed with you briefly while you were here last week. We certainly hope that you or your representative will be able to attend this.

As I told you verbally, our distribution engineer, Mr. Don Norseth, kept in touch with the distribution on Burnt Fork fairly well last year and he believes that Mr. Triplett did a fairly good job in light of the water shortage which existed. As you are aware, last year was a low-flow year and several of the later rights did not get nearly as much water as they would have liked. This, of course, was not the fault of the water commissioner. We, therefore, would be inclined to suggest that Mr. Triplett continue as commissioner for this coming year.

Sincerely yours,

Ltr. Airmailed

Wayne D. Criddle
